

Mal-Practice And The Safety Of Chiropractic

▶ Chiropractic has the lowest malpractice rate of all primary health care!! If you want real health insurance, put your trust and dollars in Chiropractic. That's where the future of your health lies.

▶ On January 1, 1996, Deborah Senn, Insurance Commissioner for Washington state, set a national precedent by requiring all insurance companies to begin offering coverage for all categories of licensed health care.

▶ At American Western, insurers are discovering that offering an alternative health insurance program actually lowers medical bills, according to Marcel J. Hernandez, ND, who directs their wellness program.

▶ Nearly across the board, there are fewer complications, side effects, and costly, unexpected medical outcomes with Chiropractic procedures.

- An estimated 2 billion prescriptions are written for people in the U.S. every year—earning \$49 billion for the pharmaceutical industry.
- A 13-year study by the U.S. Office of Public Health found 2/3 of all over-the-counter drugs do not do what the manufacturers report.*
- 190,000 deaths per year were results of drug toxicity and 300,000 deaths (the 4th leading cause of death in the U.S.) was from hospital acquired (iatrogenic) infections. (This from the Vital Statistics Report from the National Center For Health Statistics, Washington, D.C.)
- There are 8.8 million RX related hospitalizations costing \$47 billion annually. 28% of hospital admissions are due to RX side effects.**
